PROFESSIONAL SUMMARY

Front-End Developer who has shipped 38+ production React applications at Brmja Tech — spanning ERP and admin dashboards, multi-tenant SaaS portals, an e-commerce storefront, and a 9-language tourism marketplace. Integrated 16+ front-ends end-to-end with live back-end REST APIs (authentication and OTP flows, role-based dashboards, data pipelines), on top of 20+ bilingual RTL/LTR landing pages. Specialized in legacy-code refactoring, internationalization, and component-based architecture with Redux Toolkit. Computer Science graduate with cross-platform mobile (Flutter) and applied-AI experience — focused on clean, maintainable, user-centric interfaces.

TECHNICAL SKILLS

Languages: JavaScript (ES2022+), TypeScript, HTML5, CSS3, Python, C

Frameworks & Libraries: React.js 19, React Router, Redux Toolkit, Redux Thunk, Context API, i18next, Framer Motion

Styling & UI: Tailwind CSS, Bootstrap 5, CSS Modules, shadcn/ui, Responsive Design, RTL/LTR Layouts

APIs & Back-end Integration: REST APIs, Axios, Auth/OTP flows, Firebase, Firestore, Strapi, MySQL

Build & Tooling: Vite, npm, Git, GitHub, VS Code, ESLint, Figma, Vercel CI/CD

Architecture: Component-Based Architecture, State Management, Internationalization (i18n), Clean Code, Code Auditing & Refactoring

Other: Cross-Platform Mobile (Flutter), Introductory AI (TensorFlow, Keras)

PROFESSIONAL EXPERIENCE

Front-End Developer (React.js) | Brmja Tech — Maadi, Cairo | Dec 2025 – Present

- Build and **integrate production React front-ends with live back-end REST APIs** — ERP/admin dashboards, SaaS portals, e-commerce, and multilingual platforms across diverse industries.
- Delivered ERP & dashboard systems** — MyStore education dashboard, Albaraqawy ERP, Medica Overseas providers portal, and Khadamat services dashboard — building the UI and wiring role-based views to the back-end API.
- Built **Mashora**, a consultations platform with a full authentication flow (login, register, OTP, forgot/reset password) connected to a live back-end.
- Built **FIX Store v2** — a full e-commerce frontend with Redux Toolkit architecture, variant renderers (color swatches, pill selectors), AutoScroll carousel hooks, and a ProductModal bottom sheet.
- Audited and refactored **MyTours**, a 9-language tourism platform inherited from a departed developer — fixed critical bugs across 37+ files (auth, storage layer, production build) and added shared utilities, an Error Boundary, animated page transitions, and shimmer skeletons.
- Delivered 20+ bilingual (Arabic/English) landing pages with full RTL & LTR support using React 19, Vite, i18next, Tailwind, shadcn/ui, and Framer Motion — all deployed to production via Vercel.

Front-End Development Intern | Eraasoft Training Center — Cairo | Dec 2024 – May 2025

- Completed a structured front-end program (HTML, CSS, JavaScript, Bootstrap, React.js with Vite); capstone: an e-commerce frontend modeled after Amazon/Noon with responsive, reusable component patterns.

Flutter Development Trainee | Route IT Academy — Cairo | Jul 2023 – Nov 2023

- Built cross-platform mobile apps with Flutter (Firebase Auth, Firestore, Google Maps); applied Clean Architecture with BLoC/Provider and deployed to the Play Store with CI/CD.

AI Research Trainee | Zewail City of Science and Technology — Cairo | Aug 2023 – Oct 2023

- Engineered and trained five ML models in Python/TensorFlow; improved performance ~15% via preprocessing and feature engineering; processed 1TB+ datasets with multidisciplinary teams.

Embedded Systems Trainee | Information Technology Institute (ITI) — Cairo | Aug 2022 – Sep 2022

- Developed low-level C for microcontroller peripherals (I/O, LCDs, motors, timers) and communication protocols (UART, I2C, SPI, CAN, LIN); hands-on RTOS experience.

FEATURED PROJECTS — SYSTEMS & DASHBOARDS

MyStore — Education Platform Dashboard — React · Redux Toolkit · Axios · i18next · Tailwind

- Extended the front-end and integrated it end-to-end with the back-end API — role-based views, content and user management, full Arabic/English RTL. [dashboard.mystore.education](#)

Albaraqawy ERP — Enterprise Resource Planning — *React · Axios · i18next · Tailwind*

- Built and refined ERP modules (operations, inventory, accounts) and wired them to the API. app-albaraqawy.brmja.cloud

Mashora — Consultations Platform — *React · Axios · i18next · Bootstrap · Yup*

- Full auth flow (login/register/OTP/reset), services, articles, consultations, and profiles against a live back-end. mashouraksa.com

MyTours — 9-Language Tourism & Rental Platform — *React 19 · Vite 6 · Bootstrap 5 · i18next*

- Stabilized a large legacy codebase (37+ files), introduced shared storage utility, Error Boundary, page transitions, and shimmer skeletons. mytourshub.com

FIX Store v2 — E-commerce Frontend — *React · Redux Toolkit · Embla · Vercel*

- Redux Toolkit architecture, variant renderers, AutoScroll carousel hooks, ProductModal bottom sheet. fix-store.vercel.app

SELECTED CLIENT WORK — LIVE PRODUCTION DEPLOYMENTS

More systems with API integration: Professional Lawyer, Khadamat, Ne3naa3a, RealState, Elra3y Center, Nous, Takween. Selected landing pages below (source private due to client IP):

- **ElKoptan** — Waste Management (React · TypeScript · Tailwind · Framer Motion) captain-s-scrap-hub.vercel.app
- **YourZ** — Beauty/Fashion Marketplace (React · Tailwind · shadcn/ui) yourz-launchpad.vercel.app
- **Muslim Academy** — Islamic EdTech (React · Vite · Tailwind · Framer Motion) muslim-academy-landing.vercel.app
- **SheGo** — Home Medical Services, RTL (React · Vite · Tailwind · i18next) landing-she-go.vercel.app

+ 20 additional landing pages across automotive, real estate, education, and B2B — full list in portfolio.

EDUCATION

B.Sc. in Computer Science | Modern University for Technology and Information (MTI), Cairo | Sep 2020 – Jul 2024

TRAINING & CERTIFICATIONS

- Front-End Development Diploma — Eraasoft Academy (2024–2025)
- Flutter Development Diploma — Route IT Training Center (2023)
- Embedded Systems Course (156 hours) — Information Technology Institute, ITI (2022)
- Introduction to Artificial Intelligence & Applications — Zewail City (2023)

LANGUAGES & SOFT SKILLS

Arabic: Native. English: Intermediate (strong technical reading and writing).

Communication, Problem Solving, Analytical Thinking, Attention to Detail, Team Collaboration, Adaptability, Continuous Learning, Ownership.
